Mahalakshmi S

ENTRY-LEVEL FRONT-END DEVELOPER

Passionate web developer eager to bring creative solutions to life through code. With a strong foundation in HTML, CSS, JavaScript and React.js, I am excited to transform innovative ideas into dynamic web experiences. Seeking an entry-level position to utilize my skills and contribute to innovative web development projects.

Projects

Project Title: Interactive Portfolio Website

Description: Developed a personal portfolio website using HTML, CSS and JavaScript to showcase projects and skills. Implemented responsive design to ensure compatibility across devices.

Key Features

- Interactive navigation menu with smooth scrolling
- Dynamic project gallery with models for detailed views
- Contact form with client-side validation

Project Title: Movies Website

Description: A functional Movies website with Movie listings, User Authentification and Booking features.

Key Features

- Responsive Design: Ensuring optimal user experience on mobile devices, tablets, and desktops.
- Interactive Elements: Styled interactive elements such as buttons, images, and links with hover effects and transitions for a more engaging user experience.
- Flexible Grid Layouts: Utilized CSS Grid for dynamic movie containers and upcoming releases sections, adjusting columns based on viewport width.

Project Title: Online Course Website

Description: Developed a responsive and user-friendly online course platform that offers wide range of courses.

Key Features

- Responsive Design: Ensures an optimal viewing experience
- Student Reviews: A section showcasing student feedback to help prospective learners make informed decisions.
- Contact form with client-side validation

Certifications

- Java script for Beginners - Udemy
- Python Programming - IBM
- CSS for Beginners - Udemy
