## Projects

**Project Title: Interactive Portfolio Website**

Description: Developed a personal portfolio website using HTML, CSS and JavaScript to showcase projects and skills. Implemented responsive design to ensure compatibility across devices.

**Key Features**

- Interactive navigation menu with smooth scrolling
- Dynamic project gallery with models for detailed views
- Contact form with client-side validation

**Project Title: Movies Website**

Description: A functional Movies website with Movie listings, User Authentification and Booking features.

**Key Features**

- Responsive Design: Ensuring optimal user experience on mobile devices, tablets, and desktops.
- Interactive Elements: Styled interactive elements such as buttons, images, and links with hover effects and transitions for a more engaging user experience.
- Flexible Grid Layouts: Utilized CSS Grid for dynamic movie containers and upcoming releases sections, adjusting columns based on viewport width.
